## **Aga Konopka**

Movement director, dance educator and coach. A graduate of the dance theater department at the Academy of Performing Arts in Bytom. Aga supports models in creating movement on photo and film sets. Her presence on the set helps to build a story consistent with the vision of the client, director and photographer. She developed her own methods of working with models based on contemporary dance techniques. He conducts workshops, during which she trains models in the field of conscious body work. She guides actors through the process of embodying characters in films. She creates stage movement in theatrical performances. Together with the vocalists, Aga builds their individual, movement language on the stage. She creates choreography for music videos.
