Aga Konopka

Aga Konopka is a talented movement director and dance educator. She graduated from the Dance Theatre Department at the Academy of Performing Arts in Bytom (Poland) and is currently working towards certification as a movement language coach using the Laban/Bartenieff Movement System (LBMS). Aga excels in creating character movement profiles, choreography, composition, and dance dramaturgy, blending her acting background with a thorough expertise in contemporary and street dance techniques. Her innovative approach effectively transforms directors' visions into dynamic scenic movement.

Aga co-developed a program for animators and actors specializing in motion capture technology in collaboration with stunt coordinator Tomasz Koszański. This program focuses on clear communication, developing fight choreography, and converting animators' ideas into a movement language that actors can understand and perform.

Aga is also active in designing scenic movement for theater, film, advertising, and events, including concert tours and fashion shows. Her skill in developing cohesive narratives through movement brings a distinctive and enriching element to every project she undertakes.
